Intro to Bridge Preservation Training

Coordinate with Local Agency for Advertisement

20+ Trainings Given Since July 2020

Attendees provided 1.5 CEU's

100 % Virtual

Bimonthly Bridge Preservation Training

Bridge Joint Preservation, Maintenance and Replacement

9:00-10:00 AM (PST) September 18th, 2024

The AASHTO TSP-2 Local Agency program is pleased to announce a **Training Opportunity on Bridge Joint Preservation, Maintenance and Replacement**. The 60-minute training is specifically designed to teach the basics of bridge joint projects throughout their life cycle and is geared towards meeting the needs of local agencies.

The training will run through the common bridge joint types, common defects and potential actions. The training will also include a variety of maintenance techniques that enhance joint performance and longevity.

This virtual training is being offered **free of charge**. Participants will gain a general understanding of why preservation is important, how to identify good candidates for preservation, what activities are available and an idea of cost and degree of difficulty with performing the work.

Establishing a Preservation Program
Bridge Preservation Activities

When: 9:00-10:00 AM (PST) September 18th, 2024

GoToMeeting Link: <https://meet.goto.com/491544165>

Cost: FREE

Bridge preservation activities are “practices that we can’t afford not to do now.”

Scoping and Developing a Bridge Maintenance Project

9:00-10:00 AM (PST) July 17th, 2024

The AASHTO TSP-2 Local Agency program is pleased to announce a **Training Opportunity on Timber Bridge Maintenance and Preservation**. The 60-minute training is specifically designed to teach the basics of timber bridge maintenance and is geared towards meeting the needs of local agencies.

The training will run through the common issues encountered with timber bridge deterioration and potential preservation actions. The training will also include a variety of repair techniques for timber piles, girders and crossbeams.

This virtual training is being offered **free of charge**. Participants will gain a general understanding of why preservation is important, how to identify good candidates for preservation, what activities are available and an idea of cost and degree of difficulty with performing the work.

Bridge Deck Preservation Training

9:00-10:00 AM (PST) February 21st, 2024

The AASHTO TSP-2 Local Agency program is pleased to announce a **Bridge Deck Preservation Training Opportunity**. The 60-minute training is specifically designed to teach the basics of bridge deck preservation and is geared towards meeting the needs of local agencies.

The concrete deck is the highest value component on the bridge. Rehabilitating or replacing the deck is costly and can often trigger a full bridge replacement. This training will provide information on how to delay or avoid the need for those costly replacements by applying cost effective bridge deck preservation treatments.

This virtual training is being offered **free of charge**. Participants will gain a general understanding of why preservation is important, how to identify good candidates for preservation, what activities are available and an idea of cost and degree of difficulty with performing the work.
